## All-in-One GED Past Paper Crash Course | 40 Hours

Price Starts: 32,000 Baht

### Course Description

The Ultimate Exam Readiness Program: 40 Hours of Intensive Past Paper Drills & Mock Tests Across All 4 Subjects (Private 1-on-1)

Conquer the GED testing environment and guarantee your high school equivalency credential with our premium GED Past Paper Crash Course (40 Hours). This specialized, private 1-on-1 live online program on jointedu.net bypasses lengthy lecture hours and focuses 100% on active exam execution, drilling students through an extensive bank of past papers and computer-based mock examinations.

Featuring our elite all-star faculty across all 4 core subtests including our Math team (Kru Jom / Kru Nay / Kru Jack), Science team (Kru Aueng / Kru Nay / Kru Kung), and Verbal & Social specialists (Kru Kung / Kru Bird) this 40-hour strategic package gives students the total autonomy to distribute learning hours based on their target scores and weakest domains.

### Key Highlights:

**Dynamic Hourly Allocation:** Tailor your 40-hour curriculum to your exact academic baseline. Allocate more simulated test hours to high-stakes subjects like RLA or Mathematical Reasoning while streamlining review sessions for Science and Social Studies.

**Accurate CBT Examination Simulation:** Eliminate test-day anxiety. Students train directly under timed conditions that mirror the official computer-based testing (CBT) platform, mastering speed-reading protocols for historical texts and processing scientific data structures under time constraints.
